

CITY OF RAWLINS FIRE HYDRANT SPECIAL USE PERMIT (TYPE A)

COMPANY NAME _____ PHONE # _____

ADDRESS _____

REQUESTED LOCATION OF HYDRANT METER _____

- I) Only a standard hydrant wrench may be used to operate fire hydrants.
- II) Hydrants to be used shall be designated by utilities department personnel.
- III) Fire hydrants shall be flushed prior to backflow assembly installation.
- IV) Proper hydrant meter and backflow assemblies shall be used on permitted hydrants.
- V) Privately owned meter/backflow assemblies will not be allowed to be used unless previously authorized by the City of Rawlins and a current meter/backflow test certification is supplied to the utility department.
- VI) Hydrants shall not be kept charged up during cold months and all meters and hoses shall be disconnected from hydrants so hydrants can drain.
- VII) No fittings on hydrant meter/backflow assemblies shall be removed or replaced by anyone other than qualified city personnel.
- VIII) Any adapters required by the contractor shall be supplied by the contractor and installed on the existing fittings attached to the hydrant assembly.
- IX) No fittings shall be allowed to be installed on test cocks.
- X) The permit holder shall be responsible for any damage to the hydrant, hydrant meter/backflow assembly and any piping caused by the improper use of the hydrant.
- XI) A security deposit of \$2800.00, to be paid by the permit holder, shall be required on each and every meter/backflow assembly supplied by the City of Rawlins.
- XII) The security deposit will be forfeited if any damage to any part of the meter/backflow preventer assembly is incurred while in the possession of the permit holder.
- XIII) A user fee of \$10.00 per day shall be charged to the permit holder each and every day the meter/backflow preventer assembly is in the possession of the permit holder.
- XIV) Upon the return of the meter/backflow preventer assembly to the Public Works office, an inspection shall be made by a backflow preventer tester. If the assembly is in good working order, there is no damage to the assembly or fittings and there are no outstanding water use charges or fee charges, the deposit will be returned.
- XV) CONSTRUCTION WATER RATES
 - A) Inside corporate limits-----\$11.57 per thousand gallons
 - B) Outside corporate limits-----\$23.14 per thousand gallonsI, the undersigned, the permit holder or acting representative agree to the above conditions of the City of Rawlins fire hydrant use permit.
